GARDEN CLUB PLANS NEXT CIVIC EXHIBIT

Water Gardens Are Subject of Talk Given Club Last Week

Harry Johnson, of the Johnson Water Gardens of Hynes, Calif., was the speaker of the evening of the October meeting of the Torrance District Garden club meeting at the American Legion clubhouse last Thursday night. Johnson has worked with water gardens for many years and gave an interesting talk on that topic. He stated that water lilies are divided into two great general classes, the hardy and the tender, or those native to the temperate zones and those native to the tropics. For this climate, he stated, most varieties of tropical lilies may be planted. They do well here in summer, and rest for a short period in the colder months.

The speaker illustrated his talk with many beautiful colored lantern slides showing the popular varieties of water lilies, and also a number of water gardens and pools ranging from the simple variety to the large expensive ones. C. B. Bell, president of the Garden club, announced that a feature of next year's Flower Show would be water lilies, and added that he hoped that a great number of Torrance people would enter them in the 1931 show. These water lilies will be stressed for the 1931 show are the gerberas and delphiniums. Special prizes will be assigned for best baskets of vases and also individual blooms of both species of flowers. The date for the 1931 show was announced as being tentatively set for June 12 and 13, 1931. The next meeting of the club will be held November 13, when election of officers will be held.

Weed Ordinance Is To Be Reported On

The much-discussed weed ordinance and its more or less effectiveness came up again before the council this week and was referred to the ordinance committee for a complete report.

Under the terms of the ordinance, lots bearing weeds that are not destroyed by a certain time, will be cleaned by the city and the cost assessed to the owners. The ordinance committee was asked for a statement on the cost to the city for the work and all details connected with the proceeding.

State Picnics

PENNSYLVANIA

All who ever lived in the Keystone state are invited to a great picnic all-day Saturday, November 1st, in Sycamore Grove Park. Go early and spend the day with friends. There will be county registers and headquarters so all can find the old neighbors even with thousands present.

Three Jobless Men To Be City Employed

As far as it is able, the city of Torrance will help relieve unemployment it was indicated Tuesday night when an order was given to the street department to employ about three men who are out of work and need it badly to remove unsightly dirt piles on Sartori avenue near the P. E. Shops and north of Redondo boulevard.

NARBONNE GRAD ENTERS U. OF C. GEOLOGY GROUP

Henry Griffith, an alumnus of Narbonne High school, has recently been initiated into Theta Tau Theta, honorary geology fraternity, at the University of California at Los Angeles.

Mr. Griffith is enrolled in the College of Letters and Science as a geology major.

STOP SIGN ORDERED

A petition, signed by 16 names, has been received by the city council asking for a boulevard stop sign at Sonoma and Amapola avenues, an intersection traveled by a number of school children and which is said to be dangerous on account of the narrowness of one of the streets. The council decided to install the sign in accordance with the demand.

Brown's Shoe Shop Moved To New Building

Brown's Shoe Shop has moved across Redondo boulevard to new and larger quarters at 1214 Torcala avenue in the new brick structure recently erected on the property of Smith & Davis Service Station. To popularize his new location, G. W. Brown is offering special prices on new heels for men's and women's shoes for this week. Full details will be found in his advertisement in this issue.

Shoes for Cripples

For many years, Mr. Brown has made a specialty of constructing eccentric shaped shoes for crippled people. A plaster cast is first taken of the deformed foot and then a special shoe is carefully built around the model, so that comfortable fittings are assured. A general shoe repair business is also conducted by Mr. Brown who has been in business in Torrance for the past seven years.

WANTS TREES DOWN

R. G. Roberts, of 1733 Andrea avenue, has applied to the city council for permission to cut down some pepper trees on and near his place, claiming that the trees are dangerous to pedestrians in wet weather. Roberts cited a case of an 80-year-old woman slipping on some of the pepper berries and breaking her arm recently. His request was referred to the street department for investigation and report.

MEETS NOVEMBER 5

The next meeting of the city council will be held on November 5. The council adjourned to this date Tuesday night when the members' attention was called to the fact that the regular meeting would fall on November 4, Election day.

Turn About is... FAIR PLAY!

¶ A Lomita man has been Justice of Peace in this Township ever since the Justice Court was established 18 years ago. Now it's Torrance's turn.

¶ Taxpayers of Torrance pay three times as much as Lomita taxpayers toward the salary of the Justice of Peace by reason of the vastly greater assessed valuation of Torrance property within the township.
